

HAO BUI

EDUCATION

University of Massachusetts Lowell

May 2026

B.S. Finance & Management Information Systems | GPA: 3.5 / 4.0

- **Coursework:** Business Analytics, Financial & Managerial Accounting, Database Management, Investment & Portfolio Analysis, Strategic Management

Korea University

Spring 2025

Finance — Study Abroad Program

EXPERIENCE

Central Food Ministry

Jan. 2026 – Present

Part-time Director

- Directed a team of volunteers and site coordinators across 3+ government and agency partners, assigning responsibilities and monitoring performance to support daily food distribution operations
- Standardized data entry workflows and acceptance criteria for volunteer-submitted records, raising reporting accuracy organization-wide
- Modeled FY2027 budget allocation — projecting revenue, categorizing expenditures, and recommending investment priorities to organizational leadership
- Served as primary liaison between CFM leadership, the City of Lowell, and the Merrimack Valley Food Bank, strengthening stakeholder alignment and ensuring operational changes were clearly communicated to all end users

LightForce Orthodontics

Jul. 2023 – Nov. 2025

Process Analyst Co-op · Jul. 2023 – Jan. 2025

- Reduced production downtime by identifying workflow inefficiencies across 7 printer systems and implementing process improvements through updated SOPs and 10+ work-instruction documents
- Strengthened process performance by conducting risk assessments, validating process changes, and tracking key metrics before and after implementation to support continuous improvement initiatives

Quality Analyst Technician · Aug. 2025 – Nov. 2025

- Ensured data integrity across 1,000+ measurements by applying structured reporting methods to tensile test results, supporting quality and process validation decisions

Lowell Telemedia Center

Jan. 2025 – Feb. 2025

Production Intern

- Delivered consistent post-production quality across final deliverables by executing audio mixing, color correction, and grading workflows against defined technical standards

PROJECTS

Boston Parking Application — Systems Analysis Capstone

SQL · ERD · Data Flow Diagrams · Excel

- Defined end-to-end system requirements by authoring a formal service request, scope statement, feasibility analysis (economic, technical, operational, schedule, legal), and risk assessment for a real-time parking availability app
- Designed ERDs, context diagrams, and leveled data flow diagrams, translating business needs into clear functional requirements
- Built ROI and break-even analysis projecting \$10K annual profit; developed Gantt-based project plan with communication plan and gap analysis to align stakeholders on scope and timeline

Sales Demand Forecasting Analysis

Excel · Python · Data Analysis ToolPak

- Lowered forecasting error by identifying the optimal demand model across multi-year sales data (linear regression outperforming moving averages and exponential smoothing), projecting demand of ~1,092 units
- Documented methodology in a structured requirements-style report, translating raw data findings into actionable business recommendations

AI-Powered Music Analysis

Python · API Integration · JSON

- Engineered a multi-stage AI pipeline using Google Gemini LLM API to analyze song lyrics, retrieve metadata, and generate music recommendations with robust error handling

TECHNICAL SKILLS

Business Systems: Salesforce, Confluence, Jira, Notion, Microsoft Office Suite

Data & Analysis: Excel (pivot tables, regression, forecasting), Python, SQL, Data Analysis ToolPak

Process & Methods: Process Mapping (as-is/to-be), Requirements Documentation, Feasibility Analysis, ERD, Data Flow Diagrams, Risk Assessment, SOP Development

Domain Knowledge: Financial Analysis, Budget Allocation, Forecasting, Process Optimization, Data Visualization, IT Project Management
